VICK'S CHARMER PEA.

THE COMING STANDARD PEA OF AMERICA.

THE BEST ALL-AROUND MAIN CROP PEA IN EXISTENCE

At a Price No Higher than that of
any of the Old Standard Sorts.

This grand New Green Wrinkled Pea we have offered the past two years as a novelty. The reports we have received from cultivators all over the country induced us to put out several acres the past season for seed. Owing to its extreme prolificness (all other varieties being only half a crop) we have had an abundant harvest of the CHARMER, far beyond any crop we have ever grown of any variety, and for this reason we are enabled to offer it to the trade this season at the astonishing low price as quoted.

The CHARMER is the result of separate crosses and careful selection, carried out at our seed farm, and being of reasonable height and a continuous bearer makes it valuable either for large or small gardens. Its immense cropping qualities makes it extremely useful to the market gardener, and its finely-shaped and large, well filled pods are also of great service for an exhibition pea. For canners it is far superior to the Gem or Champion of

Wholesale Price List

FLORISTS' SUPPLIES.

FOR DEALERS ONLY.

JAMES VICK'S SONS, SEEDSMEN,

ROCHESTER, N. Y.

TO OUR PATRONS.

ROCHESTER, N. Y., January, 1894.

These quotations are for the Trade only, and are subject to advance without notice. The seeds quoted are to be relied on as fresh and strictly pure, and of the finest quality, largely grown on our own seed-farms or under our own inspection. It has been our aim to supply the public with seeds of a superior strain, such as will produce the finest vegetables and most perfect flowers.

The present season, both at home and abroad, has proved to be the most disastrous for the growing of seed crops that the seed trade of America has experienced in years. The excessive drought, especially in France, has resulted in very short crops of TURNIP, BEETS and CARROT seed, while in RADISH there was simply no seed harvested at all. We had large contracts with best growers in France, amounting to thousands of pounds of Vick's Scarlet Globe Radish, and we do not get one ounce of seed, therefore we are obliged to omit this leading variety from this season's edition of our Wholesale Catalogue. We have, however, a fair supply left of the EXTRA EARLY SCARLET TURNIP FORCING, and SCARLET TURNIP WHITE TIPPED RADISH, either of which variety, under the circumstances, will give excellent satisfaction as a substitute for VICK'S SCARLET GLOBE RADISH. Notwithstanding these important shortages, in making our prices for the current year we have endeavored to put them as low as possible consistent with the cost of producing seeds, etc., of the first quality. We do not, however, attempt to compete in price with parties who have no reputation to lose, and who often furnish seeds of questionable reliability.

SHIPPING.

Purchasers will please send explicit shipping instructions with each order; where no such instructions are given, we shall exercise our best judgment in the matter; but when goods have been so delivered, in first-class condition, addressed as ordered, we disclaim all responsibility for any accident, damage or delay that may occur on the route. We pay no freight or express charges unless by special agreement. When goods are desired sent by mail, postage must be added at the rate of ten cents per pound.

 Bags, boxes and barrels will be charged at cost. No charge for cartage or packing.

TERMS.

To all regular customers, orders for seeds, bulbs, or plants, made before June 1st, will be due at that date, and those made after that time will be due December 1st. A discount of one per cent. per month will be allowed when payment is made previous to these dates. **Grass Seed, Clover Seed, Potatoes, and Onion Sets, invariably net cash.** Satisfactory reference required from all new or unknown correspondents desiring credit. We decline to send C. O. D. unless a partial remittance is made as guarantee of good faith. **We send out no seeds on commission.**

Boxes of Flower and Vegetable Seeds.

For the convenience of small dealers we put up boxes of seeds in papers, embracing those varieties most in demand, and in such proportions as our long experience has taught us are called for. The boxes are neat, showy and convenient for retailing from.

THE BOX OF VEGETABLE SEEDS contains 250 five cent papers; retail value \$12.50, price to dealers \$5.00, *delivered on board cars or to express company.*

THE BOX OF FLOWER SEEDS contains \$5.00 worth of retail papers; price to dealers \$2.00. As these boxes are filled early in the season, before the press of business begins, no changes can be made from the assortments we have put up.

HANDSOME LARGE SHOW CARDS, lithographed in colors, furnished with first order.

For the assistance of those selling our seeds, we will furnish VICK'S FLORAL GUIDE, when desired, at \$3.00 per hundred; our retail price for same is ten cents each, which is much less than cost.

Choice Plants for Florists.

The plants named are offered at the rates quoted, provided that not less than six of each class or variety are taken.

While we wish to allow our customers to select the varieties of Geraniums, Roses, &c., still we reserve the right to substitute, in case our stock will not warrant the sending of kinds chosen.

Many of our customers select new and high priced plants from our FLORAL GUIDE, and expect us to furnish them at the same price we offer their respective class here. This we cannot do; but will allow a discount of 50 per cent. on all new or high priced plants, and 33 1/3 per cent. on bulbs not offered in the following list.

Hardy, Strong and Free Bloomer.

In habit the plant is like the well known White Japan Anemone; the same strong growth and healthy foliage, and perhaps even more abundantly blooming. The flowers, which are $2\frac{1}{2}$ to 3 inches across, have several rows of white sepals, and the blooms last much longer than those of the single variety. The plants grow quite evenly in height, from $2\frac{1}{2}$ to 3 feet, and with large and plentiful foliage. In a word it may be said that this new double variety, which has been named "Whirlwind," has all the free blooming and other good qualities of the Single White or Honorable Jobort, and the additional ones of great hardiness of plants, while the blooms are more lasting. These characteristics are decided advantages and must make a demand for it on all ornamental grounds.

PRICE:—Each 15 cents; per hundred \$12.00; per thousand \$100.00.
Not less than 250 at one thousand rates.

The White Gem Potato

One of the Earliest of the Whites.

Originated from the "Early Harvest," over which it has marked advantages. A strong grower, very prolific, and of fine quality. We have been perfecting the seed for several years past, tried it on different soils, and it has proved a success everywhere. The illustration gives an excellent idea of the smooth, clean shape, which makes them popular sellers.

Price per bushel \$2.50 ; per barrel \$5.50.

VICK'S ASTER
NEW WHITE BRANCHING

The Florists'

Favorite.

The size of flowers, length of stems, and the purity of the Chrysanthemum-looking blooms, make them the most useful flowers in existence. They are greatly admired by all florists who have seen them, and there is no question but that they will quickly find a place in the flower trade. With but slight protection they will last long after early frosts, and continue in flower even after the Chrysanthemum comes into bloom. See letter from Geo. S. Conover, page 43 Floral Guide.
